"Clean Up and Paint Up."

By WALLACE GOLDSMITH.

Clean Up and Paint Up to Reduce Fire Hazard

THE Indiana State Fire Marshal de-
clares that every city and town
should conduct "Clean Up and Paint
Up" campaigns, to

reduce fire haz-
ards, if for no oth-
er purpose. And
he declares that
the application of
paint to wooden
buildings is quite

as important a fire preventative as is
the removal of rubbish from garrets
and areaways. He is therefore strong-
ly urging "Clean Up and Paint Up"
weeks for every city in the state.

"Inspections in the larger cities,"
says the Indiana Fire Marshal, "show
that about 10 per cent of all buildings
and premises within business districts
are being endangered by rubbish.

Though the residence districts have
not been inspected, the proportion, no
doubt, is just as large. One of the
most effective fire preventatives is
clean and tidy premises, both in busi-
ness houses and in dwellings."

The Fire Marshal is advising every-
where the painting of the shingle roof.

"Paint not only makes shingles more
durable," says the Fire Marshal, "but
it acts as a fire preventative as well.
By covering and protecting the fuzzy
splinters that form on the outer sur-
face of shingles, the paint greatly re-
duces the likelihood of fire from fall-
ing sparks."

Scores of Indiana cities are follow-
ing the Fire Marshal's advice this
year. A "Clean Up and Paint Up"
campaign will reduce fire losses in
Ourtown.

Clean Up and Paint Up— Get Behind the Brush

SPRINGTIME has at last come to
stay, to prepare all nature for
summer's flowers and the autumn's
harvest.

Even the abject stir about their
wretched premises, plant morning
glories and try their best to fix
up the leaning pickets left from the
kindling needs of the later frosty
mornings. Good housewives tie the
towels about their heads, gird up their
narrow skirts and chase the dust of
winter from their rooms. The laziest
pick and trifle with their belongings
to fix themselves better to face the
changing seasons.

"Clean up!" is the phrase.

Why not enlarge it? Why not "paint
up?"

And if "paint up," why not do it so
it will LAST and PAY?

Painting is another "art preserva-
tive." Rightly done, it saves repair,
adds to length of property-life, in-
creases property-attractiveness, brings
to the tenant's lips the pleased smile,
to the righteous landlord the wholesome
feeling of duty well performed.

Between-ourselves, there's room for
lots on lots of paint here in Our-
town. Well applied, in colors judi-
ciously selected, it would conceal a
multitude of architectural and sanitary
sins from the discerning eyes of tour-
ists passing this way and from our-
selves.

Look over your OWN house, or
home, or business structure.

Don't YOU agree? Try our prescrip-
tion—"Clean Up and Paint Up."

FARMERS' UNION MET AT LA COSTE

County Union Held There Last
Saturday Well Attended
and Very Enthusiastic

NEXT MEETING ON MAY 8th

The Farmers' Educational and Co-
operation Union of Medina County
assembled in regular session in the
Woodmen Hall at LaCoste Saturday,
April 10th, with a good attendance,
comprising delegates from nine differ-
ent Locals of the county.

The meeting proved interesting from
start to finish, only somewhat rushed
by threatening rain.

County Lecturer Henry Bendele
made a good talk on union principles,
which was highly applauded.

The committee on resolutions, com-
posed of Joe Langfeld, C. H. Harris
and S. H. Saathoff, presented various
resolutions which were thoroughly dis-
cussed. Resolutions permanently adopt-
ed by the County Union are as follows:

1st. Whereas, the District Union
will meet at Fredericksburg on the
23rd and 24th of April, which will cer-
tainly be the most important meeting
ever held in this district; therefore we
shall ask each and all locals to urge
upon their delegates to attend the
meeting without failure.

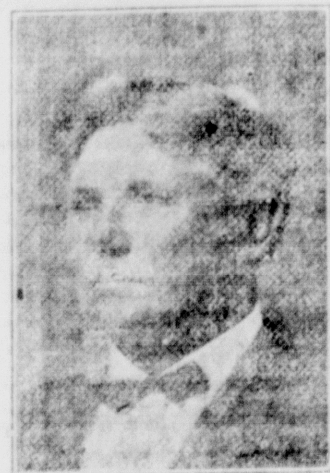

2nd. Resolved, that the County
Union assembled urge upon the mem-
bership of Medina county to sell all
products through our local, district
and state managers or salesmen at
such a price and at such a time as set
upon the product by the owners which
shall and must be done through con-
signment and written authority.

3rd. Resolved that we, the County
Union, recommend that every delegate
of this district attending the meeting
at Fredericksburg shall be appointed a
committee to report back to the pres-
ident of the district the reduction of
cotton acreage of their localities or
counties after their return home from
Fredericksburg, who in turn shall
make a report and give the average
per cent to all locals in good standing
in the district.

4th. Whereas, Attorney General
Looney is making efforts to do away
with the free transportation given to
farmers attending the district and
state meetings; therefore, we, the
Medina County Union assembled, con-
demn the action of the attorney gen-
eral.

5th. We recommend that each and
every member of our County Union
subscribe for and read the Farmers'
Union papers, namely: The Fireside

A Member of the Hondo Summer Normal Faculty

PROF. W. N. SAATHOFF

County Superintendent of Public In-
struction of Medina County.

and Bulletin, or National Field, or both,
and other papers not opposing the
good work of the Farmers' Union.

6th. We further recommend that
this body elect a permanent press com-
mittee of one who shall furnish the
newspapers of the county with reports
of the meetings of the Farmers'
Educational Union of the county.

Hereafter the regular meetings of
the County Union will be held on Sat-
urday before the second Sunday of
each month. The next meeting was
set to be held at Quilhi on May 8th.

Act Quickly.

Delay Has Been Dangerous in Hondo.

Do the right thing at the right time. Act quickly in time of danger.

In time of kidney danger Doan's Kidney Pills are most effective.

Plenty of evidence of their worth.

O. L. Ezzell, County Treasurer, C. St., Floresville, Texas, says: "I willingly add my endorsement for Doan's Kidney Pills to the many that have already been given them. I had sharp twinges in the small of my back when I stooped or moved quickly. I used Doan's Kidney Pills with the most satisfactory results. They restored my strength and energy, regulated the passages of the kidney secretions and rid me of the headaches and pains. (Statement given June 1908).

Over three years later, Mr. Ezzell said: "I am glad to say that the cure I got has been permanent. I advise all kidney sufferers to use Doan's Kidney Pills."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ezzell had. Foster-Milburn Co., Props., Buffalo, N. Y.

Nothing So Good for a Cough or Cold.

When you have a cold you want the best medicine obtainable so as to get rid of it with the least possible delay.

There are many who consider Chamberlain's Cough Remedy unsurpassed.

Mrs. J. Boroff, Elida, Ohio, says, "Ever since my daughter, Ruth, was cured of a severe cold and cough by Chamberlain's Cough Remedy two years ago, I have felt kindly disposed toward the manufacturers of that preparation. I know of nothing so quick to relieve a cough or cure a cold." For sale by All Dealers.

The teacher had been telling the class about different kinds of cloths. "Now, Johnny," she said, "what is your coat made of?" "Of my father's pants," said Johnny, promptly.

Rheumatic Pains Relieved.

Why suffer from rheumatism when relief may be had at so small a cost? Mrs. Elmer Hatch, Peru, Ind., writes, "I have been subject to attacks of rheumatism for years. Chamberlain's Liniment always relieves me immediately, and I take pleasure in recommending it to others." 25 and 50 cent bottles. For sale by All Dealers.

No use getting mad because you can't find the hammer. If you must get mad about anything, get mad because you leave things around wherever it happens.

Stomach Trouble Cured.

Mrs. H. G. Cleveland, Arnold Pa., writes, "For some time I suffered from stomach trouble. I would have sour stomach and feel bloated after eating. Nothing benefited me until I got Chamberlain's Tablets. After taking two bottles of them I was cured." For sale by All Dealers.

How often have you said to your wife, "I can't find it, it isn't there"; and she has gone right to the bureau drawer, perhaps your own, and picked it up?

A Cure for Sour Stomach.

Mrs. Wm. M. Thompson, of Battle Creek, Mich., writes: "I have been troubled with indigestion, sour stomach and bad breath. After taking two bottles of Chamberlain's Tablets I am well. These tablets are splendid—none better." For sale by All Dealers.

There's about as much sense in the European nations going to war with each other as there is in a man burning his barn to roast a rat.

For Constipation.

Mr. L. H. Farnham, a prominent druggist of Spirit Lake, Iowa, says: "Chamberlain's Tablets are certainly the best thing on the market for constipation." Give these tablets a trial. You are certain to find them agreeable and pleasant in effect. Price 25 cents. For sale by All Dealers.

The lazy man may think he is having a good time, but right down the road is the poorhouse.

Ragged wounds are painful and cause much annoyance. If not kept clean they fester and become running sores. Ballard's Snow Liniment is an antiseptic healing remedy for such cases. Apply it at night before going to bed and cover with a cotton cloth bandage. It heals in a few days. Price 25c, 50c and \$1.00 per bottle. Sold by W. H. Windrow.

CONSUMPTION TAKES 350 PEOPLE DAILY

Over 350 people succumb to consumption every day in the United States. Science proves that the germs only live when the system is weakened from colds or sickness, overwork, confining habits or when general weakness exists. The best physicians point out that during changing seasons the blood should be made rich and pure and active by taking Scott's Emulsion after meals. The cod liver oil in Scott's Emulsion warms the body by enriching the blood; it peculiarly strengthens the lungs and throat, while it builds the resistive forces of the body to avoid colds and prevent consumption. If you work indoors, tire easily, feel languid or nervous, Scott's Emulsion is the most strengthening food-medicine known. It is totally free from alcohol or any irritating drug. Avoid substitutes.

GLORIOUS INAUGURATION OF WORLD'S GREATEST INTERNATIONAL CELEBRATION ASSURES CONTINUED SUCCESS

WITH an attendance for the first week greater than the combined attendance for the same period of the world's expositions at Chicago and St. Louis, the Panama-Pacific International exposition at San Francisco has started on a career that the most conservative judgments predict will break all records for exposition success.

The exposition opened on February 20, 1900 per cent complete structurally, and opened to an attendance of one quarter of a million people. From every state of the United States and from the nations of the world came critical visitors to pass on the merits of the celebration that had been so widely heralded. They found nothing to criticize. Every claim made by San Francisco and the exposition was fulfilled. It is safe to say that not a single visitor went away disappointed. The result has been that the advertisement by word of mouth, and by letters home and to friends—the most powerful form of advertisement—has been given the exposition. In consequence the transportation companies report a constantly increasing booking for travel to San Francisco both by land and water.

Exceptionally low rates have been given by the transportation companies from all points within the United States to San Francisco, offering many people an opportunity that could not otherwise be taken, of combining a pleasure journey to the exposition with a sightseeing tour through California and the West.

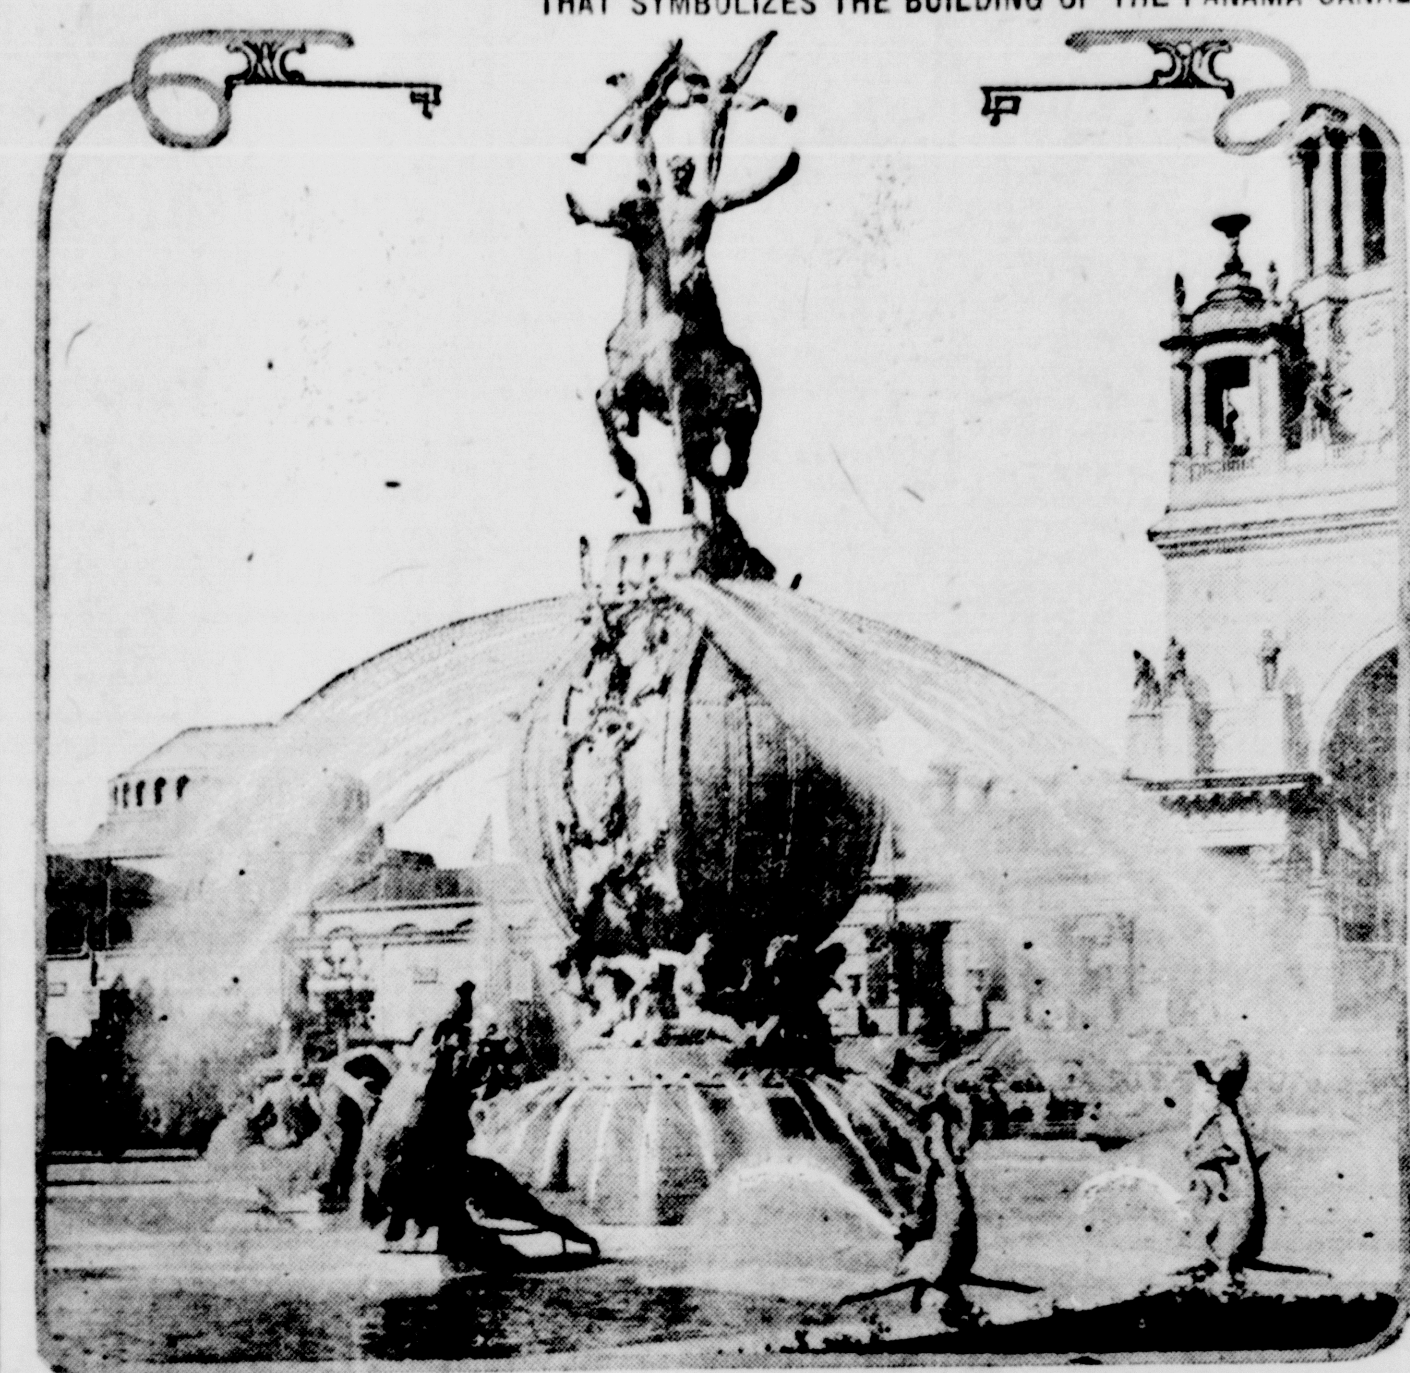

A feature of the exposition that has called for universal comment is the "action" that marks exhibits, every exhibit capable of operation by steam or electricity being shown in motion.

A flood of inquiries concerning rates and hotel accommodations has been received by the information bureau of the exposition since the news of its successful opening was flashed around the world, all such inquiries being given prompt attention. San Francisco and California are fulfilling their host duties and living up to the reputation the West has always had for hospitable treatment for the stranger.

HANDSOME SIXTY-PAGE BOOK ON THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION SENT FREE OF CHARGE TO ANY ADDRESS.

Those who are interested in this great exposition may obtain free of charge a handsomely illustrated book of sixty pages, reproducing the exhibit palaces in their natural colors and giving essential data about the exposition, San Francisco, California and the Panama canal. To obtain this book send a letter to the Manager, Bureau of Publication, Panama-Pacific International Exposition Grounds, San Francisco, Calif.

THE FOUNTAIN AT THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION THAT SYMBOLIZES THE BUILDING OF THE PANAMA CANAL

The labor that went into the building of the Panama canal is symbolized in the Fountain of Energy, by A. Stirling Calder. This heroic sculpture stands in the center lagoon of the three lagoons of the South Gardens and faces the main entrance gates. The waters were first released on opening day, February 20, coincidentally with the opening of the portals of the exhibit palaces and by the same means: the electric spark transmitted across the continent when President Woodrow Wilson opened the great exposition at San Francisco by wireless.

DURING A LULL IN THE OPENING DAY CEREMONIES AT THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION

The Panama-Pacific International exposition was opened by a wireless spark dispatched by President Woodrow Wilson at Washington, and caught on the tendrils of a wireless aerial on the lofty Tower of Jewels at the exposition. Instantly the power was released in the mighty Palace of Machinery and the portals of the exhibit palaces opened. The scene is on the grand stand after the ceremonies had ended. Secretary of the Interior Franklin K. Lane, Gov. Hiram Johnson of California, Mayor James Rolph, Jr., of San Francisco, President C. C. Moore of the exposition and a notable group of visiting dignitaries being seen in animated discussion of the epochal event. In the press box the correspondents are seen flashing to the world the news that the exposition had opened.

Moral Regulation.

"I have forbidden my employees to smoke cigarettes," said the automobile manufacturer.

"That's all right," replied the cigarette man. "We'll get even. We'll forbid our employees to squander their time and money on automobiles."

His Aristocratic Taste.

"Doesn't your wife like automobilizing?"

"She likes it well enough."

"But I've never seen her in the car with you."

"She'd like to go all right, but that blue-blooded bulldog of hers won't ride in anything but a limousine."

The Critic.

"How do you like the meter of my poem?" asked the poet when the magazine editor had finished reading it.

"There is plenty of gas in the thing, but I'm hanged if I can see any meter," replied the heartless editor.

A Real Pessimist.

"He's the most pessimistic person I've ever met."

"Elucidate."

"He's letting his house fall apart because he's buying it on the installment plan. Says he won't risk a cent on repairs until he has it clear."

Words! Words!

Debutante—He said he would go through a raging flood just to look into my eyes.

Chaperon—When, last night?

Debutante—No: last night he phoned that it was raining too hard for him to call—Judge.

Good Cause.

"What made you fall down on that suburban investment?"

"I guess it was because when I went to the bank I found I had lost my balance."

The Sort.

"I want to buy a carriage—a shay."

"What style sir?"

"My wife says to show me one of them shay doovers our neighbors got."

Finishes the Job.

It is beauty that begins to please, and tenderness that completes the charm.

MORE STRENGTH FOR OLD PEOPLE

Mrs. Hutchison—Eighty-One Years Old—Uses No Other Tonic but Vinol and Recommends It to Friends.

Greenville, S. C.—"It is with pleasure I tell others of the great benefit I have derived from Vinol. For the past several years, I am 81 years old and I find Vinol gives me strength, a healthy appetite and overcomes nervous disorders. Vinol is the only tonic reconstructor I have used for several years. I have recommended it to a great many of my friends and it has always proved satisfactory." — Mrs. M. A. HUTCHISON, Greenville, S. C.

Such cases as the above are constantly coming to our attention. If people in this vicinity only realized how Vinol invigorates old people we would not be able to supply the demand.

It is the tissue building, curative elements of the cod's livers, aided by the blood making strengthening properties of tonic iron contained in Vinol, that makes it so successful in building up strength for old people, delicate children and for all run-down conditions. Vinol is also a most successful remedy for chronic coughs, colds and bronchitis. If it fails to benefit any one who tries it we return your money.

Profit in Ostrich Raising.

That an ostrich farm is of more value than a good cattle ranch is shown by an authority who puts the value of a beef animal at \$40 at five years of age, while an ostrich of the same age is worth \$300.

Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

Made My Life Worth Living

"I feel it my duty to tell others what Chamberlain's Tablets have done for me," writes Mrs. L. Dunlap of Oak Grove, Mich. "I have suffered with pains in my back and under my shoulder blade for a number of years, also with a poor appetite and constipation. I tried all of the remedies that I heard of, and a number of doctors, but got no relief. Finally a friend told me to try Chamberlain's Stomach and Liver Tablets. I got a bottle of them and they soon helped my stomach; by their gentle action my bowels became more regular. Today I feel like praising them to all who suffer as I did, for they have cured me and made my life worth living."

Chamberlain's COLIC, CHOLERA AND Diarrhoea Remedy

THIS is unquestionably the most successful medicine in the world for all bowel complaints, and it is the recognized standard over a large part of the civilized world. Every member of a family should keep this remedy in his home. Buy it now. It may save life. Price, 25c. Large Size, 50c.

A Barbed Wire Cut, Collar or Saddle Gait will properly healed leaves a disfiguring scar.

Ballard's SNOW LINIMENT

Is the Right Remedy for All Abrasions of the Flesh.

If the wound is cleansed and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outwardly, thus performing a perfect cure that leaves no scar. If the wound heals on the outside too quickly, pus forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of blooded stock prefer this liniment to all others for that reason, and they use it not only on fine animals, but on human flesh, as it does its work quickly and thoroughly.

Price 25c, 50c and \$1.00.

JUDGING AN AUTOMOBILE VALUE

As the automobile industry has progressed, and as some owners have learned the distressing circumstances that usually follow the purchase of an automobile that has no standing from a manufacturing point of view, we sometimes wonder why the average prospective buyer does not give the question of the merit and reputation of an automobile more serious attention before he makes a selection. Ever since the beginning of the automobile business new cars have flashed on the horizon and have very promptly dropped out of sight. The announcements by the manufacturers have always been full of promises and from an advertising point of view many of these cars have made a hit, but they have never accomplished the advertised purposes, and in failing leave the purchaser absolutely helpless when it comes to obtaining repair parts, service, etc.

This should be one of the strongest arguments to your prospects, for, since Buick was put on the market it has naturally grown and profited each year, increasing its production as well as the number of its satisfied owners, and today Buick is recognized as the highest-class motor-car investment you can make.

Below is a list of ninety-seven cars (and there are probably more) that during the last few years were at some time or other very prominently known and widely advertised throughout the country, all of which are, however, at this time "orphans" in the automobile industry, the manufacturers having gone out of business for some of the various reasons given above:

Atlas, Ampex, Anco, American, Aigne, Aero, Allen-Kingston, American-Mors, Anchor, Anbut, Brush, Blomstrom, Babcock, Badger, Breeze, Barnes, Benham, Bergdoll, Berkshire, Black Crow, Cutting, Cameron, Columbia, Corbin, Carhart, Clark-Carter, Cino, Coates-Goshen, Dearborn-Detroit, Demott, Dragon, Detamble, Deluxe, Everett, Elmore, Edwards, Fuller, Fal Car, Firestone-Columbus, Gaeth, Great Western, Great Smith, Holsman, Halladay, Havers, Herreshoff, Henry 40, Johnson, Knox, Lion, Lozier, Michigan, Mason, Midland, Marquette, Matheson, Meteor, Metropoli, Middleby, Northern, Nyberg, Ohio, Only, Orient, Palmer-Singer, Pierce-Racine, Pittsburg-Six, Parry, Pope-Hartsford, Pope-Tribune, Pope-Toledo, Pennsylvania, Petrel, Queen, R. The Breaking-Plow

I am the plow that turns the sod
That has lain for a thousand years;
Where the prairie's wind-tossed flow-
ers nod,
And the wolf her wild cub rears,
I come, and in my wake, like rain,
Is scattered the golden seed;
I change the leagues of lonely plain
To fruitful gardens and fields of grain
For men and their hungry breed.
I greet the earth in its rosy morn,
I am first to stir the soil,
I bring the glory of wheat and corn
For the crowning of those who toil
I am civilization's seal and sign,
Yea, I am the mighty pen
That writes the sod with a pledge di-
vine,
A promise to pay with bread and wine
For the sweat of honest men.
I am the end of things that were,
And the birth of things to be,
My coming makes the earth to stir
With a new and strange decree;
After its slumbers, deep and long,
I waken the drowsy sod,
And sow my furrow with lifts of song
To glad the heart of the mighty throng
Slow feeling the way to God.
A thousand summers the prairie rose
Has gladdened the hermit bee,
A thousand winters the drifting snows
Have whitened the grassy sea;
Before me curls the waving smoke
Of the Indian's smoldering fire,
Behind me rise, — was it God who spoke?
At the toil-enchanted hammer's stroke,
The town and the glittering spire.
I give the soil to the one who does,
For the joy of him and his,
I rouse the slumbering world that was
To the diligent world that is;
Oh, Seer with vision that looks away
A thousand long years from now,
The marvelous nation your eyes sur-
vey
Was born of the purpose that here,
today
Is guiding the breaking-plow.
—Nixon Waterman, in Success.

TO RESIST THE ATTACK—of the germs of Consumption, Scrofula, Grip, Malaria, and many other diseases—means fight or die for all of us. These germs are every-
where in the air we breathe. The odds are in favor of the blood impure. What is needed most is an increase in the germ-fighting strength. To do this successfully you need to put on healthy flesh, rouse the liver to vigorous action, so it will throw off these germs, and purify the blood so that there will be no "weak spot," or soil for germ-growth.
We claim for Dr. Pierce's Golden Medical Discovery that it does all this in a way peculiar to itself.
Heures troubles caused by torpid liver or impure blood.
"The Common Sense Medical Adviser," latest edition, in French cloth binding, will be sent free on receipt of 31 one-cent stamps to pay the cost of wrapping and mailing only. Address Dr. Pierce, Buffalo, N. Y.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running ear, or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One-Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

MAKE your preparations now, Mr. School Teacher, to attend the Hondo Summer Normal!

The old fashioned boy who used to get sewed up in his winter heavies every November now has a son who wears the tissue paper kind all year.—West Texas Magazine.

"It's a long way to Tipperary."
To where the soul, sick and aweary,
Can secure surcease from the dreary
Strumming of boresome Tipperary!

THE brewers of San Antonio have secured a fresh cargo of hops from Germany. This assures us that the supply of that amber hued fluid that cheers will hold out a little while longer even if the war does go on indefinitely!

HONDO is to have two summer normals this year—one for the white teachers and one for the colored. Well, Hondo is such an ideal place to stay we are not surprised at all nations, races and creeds making it their mecca for intellectual uplift.

It is to be hoped that the Castroville precinct will give such a valuable object lesson in good road building with its forty-thousand dollar bond issue that the central and western portions of the county will be encouraged to follow suit and the long cherished dream of this paper of a macadamized road extending from its eastern to its western border may become a grand reality.

ONE of the most deplorable things that can befall any town is for its citizens to become embroiled over local issues. Let's concede that we are all seeking to promote the best interests of the community and try to realize that our differences are merely differences in view points. Such a realization will save us all many heart-aches and prevent the community making a spectacle of itself before the outside world.

ELABORATE preparations are being made for a grand celebration of San Jacinto Day in San Antonio from April 20th to 24th, inclusive. Low rates will be given on all roads and many people will take advantage of the occasion to visit the Alamo City.

THE thread of life is a brittle cord. An awkward step, a momentary over-sight, a flash and the cord is snapped. A momentary snarl on the warp of life and the shuttle of time drives on and man is forgotten. Even should he reach his allotted three score and ten, man's life is but a span that ends in a twinkling. Yet it is wrong to brood over our inevitable end. Be our time what it may that and that alone is ours. The use we make of it is the measure of our worth and it should be our chief concern to give to our day and generation the best that lies within us. In the best use possible of the talents given us lies the brightest promise of a future reward of happiness.

EVERY town should have a Board of Charities—some organization to whom mendicants and seekers after alms might be sent and have their claims investigated and receive such assistance, financial or otherwise, as their necessities might require. No one wants to turn down a deserving case. All are anxious to contribute to the relief of genuine suffering. Because of this, and the further fact that charity is not organized but is doled out as one's impulse moves them, many unscrupulous persons take advantage of the public to perpetrate a most pernicious system of graft to the detriment of real objects of charity. Such Pariahs should be hunted down, exposed and driven to earn an honest living. These remarks are called forth because of things observed by this writer in some of his travels over the State. A case in point is that of a woman and child seen seeking alms in Cuero to take themselves and a sick husband and father to a city further west. In less than a week these same people or others bearing a marked resemblance to them, were telling the same story in Hondo and seeking to secure means to reach relatives in Alpine. While we felt that the woman was a fraud and that she lied when she denied being the same party, we had no time to make a personal investigation and as there was no one else to shoulder the burden to whom we might send her, we gave her our dole and eased our feelings by the consciousness that we had given her the benefit of the doubt. But this should not be. Such a system or want of system encourages frauds to ply their nefarious trade and militates against the real sufferers who need assistance. Here is a line of work which should appeal to some of our women's organizations and affords them an opportunity for some more useful service in the cause of humanity.

TO DEATH IN OCEAN

Pathetic, Yet in a Sense Dramatic, Suicide.

"No Work, No Hope, No Use," Wrote California Man Before Swimming to Oblivion in the Waters of the Pacific.

With \$6 and a watch, S. H. Eckhart, 4012 Compton avenue, Los Angeles, could find no hope in life. So he went out to sea at Venice and no one has seen him come back, and his clothes and his watch and the \$6 were left behind in one of the bathhouse dressing rooms.

No one knows his trade or his identity. He went to Venice with many others for a swim, the surf having only a minor chill to the seasoned swimmer. Quite a few persons were in the water, but not so many that one was lost in the group.

So when the person who was later identified as S. H. Eckhart, walked from the bathhouse to the strand, he was noticed. Before he had left his room in his bathing suit, Mr. Eckhart evidently had summed up his condition in one short sentence.

It read: "No work, no hope, no use," and was later found pinned to his clothing behind the locked door. Beside it lay the \$6 in currency and the watch that was ticking faithfully.

Not once after he left the shelter of the bathhouse did the man turn his head. He walked into the water, and the whiteness of his skin did not indicate a hardened swimmer. But he didn't flinch. Above his knees the water came, and when about his waist, and as it reached his shoulders he bent over with his face to sea, and took a breather.

Farther out he came to the surface again, plowing for the open sea. The men on the beach were playing games to keep warm.

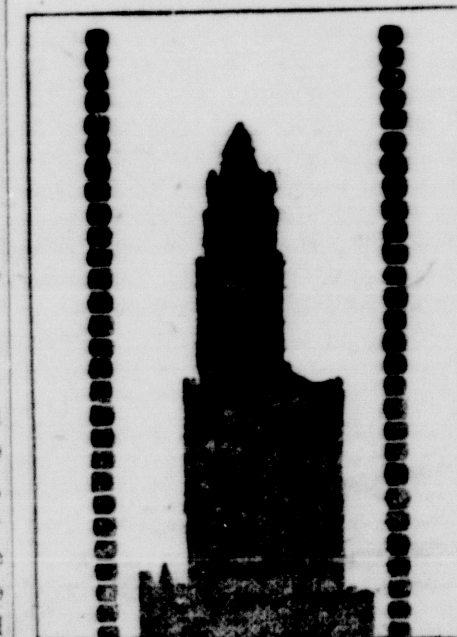

Someone noted the swimmer a little later. "Quite a ways out," and that was all that was said.

Not once did he turn his head. To those on land who were getting ready for their warm rubs he grew smaller and smaller. And at last far out in the distance, where the vagueness of death itself is hinted in the tint where sky meets sea, they saw the small spot bobbing, and a straining eye could see it bobbing again, and then the little spot went out to sea, and all that came back, as far as anyone could see, was a sea gull that had something important to tell its mates.

INCH OF RAIN MEANS MUCH

Enormous Mass of Water Falls When That Precipitation Is Recorded.

Very few persons—even those who are well informed on most matters—know how much an inch of rain is. The average man or woman prob-

"Placed end on end, 600 barrels would make two piles taller than the tallest skyscraper."

ably has an idea that an inch of rain is a mere trifle on nature's part. This is entirely wrong. In reality it is a good big rainfall—more than falls in most places in an average week.

It is five times more rain than fell in New York city during the 46 days which ended on October 15 last, but that was the longest dry period in the history of the local weather bureau.

A rainfall of one inch mean literally that the amount of water descending in a particular shower would cover the surrounding territory to a depth of one inch, providing it did not run away or soak into the ground.

An inch of rain coming down on a single acre of land would fill more than 600 barrels of 55 gallons capacity each. This amount of water would weigh more than 110 tons, or nearly a quarter of a million pounds.

Paroled Men Make Good.

The Missouri state board of pardons and parole submitted a report to Governor Major showing that out of 312 convicts paroled from the prisons in the last two years only 12 have violated their paroles, and have been returned to prison. All the others are following some useful occupation. Those who have obeyed their paroles are earning from nine dollars a week up, several instances being cited where they are earning as much as \$100 a month. Out of 500 paroles issued in the last four years only 18 have violated the terms of their release.

A Nervous Wreck

Had No Desire To Live
Peruna Is A Tonic and Strength Builder So Says

Mrs. Frank Stroehs, R. F. D. 1, Appleton, Wis. Her letter reads: "I began using Peruna a few months ago when my health and strength were all gone, and I was nothing but a nervous wreck. Could not sleep, eat or rest properly, and felt no desire to live."

"Three bottles of Peruna made me look at life in a different light, as I began to regain my lost strength. While my recovery took nearly four months, at the end of that time I was better than I ever had been before. I had a splendid color and never weighed more in my life."

"I certainly think Peruna is without a rival as a tonic and strength builder, and it has my endorsement." Mr. Charles Brown, R. R. 4, Box 79, Rogersville, Tenn., writes: "I have tried many different remedies, but have found that Peruna is the greatest tonic on earth, and a perfect system builder."

"Don't finish! Don't finish!" shouted Mr. Gadsby. "I know exactly what you did. You went and gave away one of the best suits of clothes I had and probably a pair of shoes I could have worn for twelve months longer, and a hat and there's no telling what else, all at a time when I can't afford to buy anything new!"

"Don't be so hasty," said Mrs. Gadsby. "If you had listened to me instead of interrupting, you would have saved your breath and kept your temper. The man wanted something for his wife who is a cripple, he said, and I gave him one of my old skirts that I used to cook in."

Field Agents at Robstown.

Robstown, Tex., April 11.—Mrs. E. M. Barrett and Fletcher Davis, field agents of the Agricultural Department of Texas, spoke at a school rally here Saturday. Mrs. Barrett dealt with home economics and the home project method of education, also of the great necessity of organized agricultural and industrial education for the masses. Mr. Davis spoke of diversification, home gardens, animal husbandry and co-operative marketing of farm products and emphasized the importance of farmers organizing for mutual assistance and placing themselves in touch with marketing bureaus and the Department of Agriculture.

After the address the farmers organized an institute with about thirty members and elected the following officers: President, J. T. Jewett; vice president, Fred Nally; secretary, Mrs. Grace Q. Mitchell; entomologist, H. O. Keideli.

This section being almost an exclusive cotton country and hit hard by the low price of cotton, they were much interested in money crops as a substitute for that staple.

AT REST

Mrs. Caroline Jagge (nee Tschirhart) was born at Castroville April 20, 1860, and died at the old homestead April 9, 1915, aged 54 years, 11 months and 19 days.

She was married to A. F. Jagge on the 9th day of June, 1879. Their union being blessed with eight children, seven of whom are still living, five sons and three daughters—Phil, Fred, Julius, Patrick (deceased) Archie, and Mollie, wife of Wm. Schmidt, May, wife of Ed. Poerner, and Miss Lenora. Besides these she is survived by a husband, four grand-children, eight brothers and one sister.

Mrs. Jagge had been in failing health for the past five years, but she bore her prolonged and painful illness with patience, fortitude and resignation. Friday evening at the setting of the sun, death pulled down the curtain of life over her mortal career and her immortal soul took its flight to God who gave it.

After a long, busy and useful life she died as she had lived, honored, trusted and loved. But she has left us today; another grave holds our sight all that is mortal of a true and noble woman.

The funeral took place from her home at Castroville Saturday afternoon, April 10, 1915, at four o'clock. Services were held at the St. Louis church, after which the remains were laid to rest in the Catholic cemetery. Father Heckman performed the last sad rites.

In spite of the threatening weather, the funeral was large, people attended from all parts of the county and adjoining counties.

Castroville, April 12, 1915.

Miss Agnes Sauter of D'Hanis, who has been visiting the Albrecht's, returned home Wednesday evening.

Miss Aggie Reilly went to Hondo Monday evening on a visit and returned Tuesday.

"Dodson's Liver Tone" Will Clean Your Sluggish Liver Better Than Calomel and Can Not Salivate.

Calomel makes you sick; you lose a day's work. Calomel is quicksilver and it salivates; calomel injures your liver. Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your head-ache and dizziness gone, your stomach will be sweet and bowels regular. You will feel like working. You'll be cheerful, full of energy, vigor and ambition.

Your druggist or dealer sells you a 50 cent bottle of Dodson's Liver Tone under my personal guarantee that it will clean your sluggish liver better than nasty calomel; it won't make you sick and you can eat anything you want without being salivated. Your druggist guarantees that each spoonful will start your liver, clean your bowels and straighten you up by morning or you get your money back. Plays the Lead In "A Newspaper Nemesis"

PEGGY BURKE, THANDOUSE-
MUTUAL STAR.

Peggy Burke has come into her own with the release in the Mutual program of "A Newspaper Nemesis," in which she has the lead. This charming young member of the Thandouse-Mutual stock company when she had completed her work in this important part and saw the result of it on the screen was delighted thoroughly, for she had made the best of her opportunities.

"A Newspaper Nemesis" has been produced in the atmosphere incident to daily journalism and has interwoven delightful love scenes with any number of thrilling situations. John Harvey directed the production.

The Mutual Stars Support Louise Lester

HARRY VON METER AND VIVIAN
RICH—"FLYING A."

In "She Never Knew" the American Mutual studios have produced a very powerful film drama in one reel, in which Louise Lester is starred. In her support are Vivian Rich, Harry Von Meter, Charlotte Burton, Jack Richardson, Reaves Eason and a number of others almost as well and favorably known.

Miss Lester can almost be herself in "She Never Knew," because her role of Mrs. Conway, mother of a wayward boy, gives her the opportunity to show what a splendid character actress she is. When her son robs his employer Mrs. Conway makes restitution for her son's wrongdoing by giving up the savings of a lifetime. Her son meanwhile has run away with a dance hall girl.

But Mrs. Conway tells her daughter Alice that Tom surely will come back some day. And every night she puts the prodigal's pipe and slippers before the fireplace. Tom Conway does come home—staggering drunkenly there after he has killed the girl with whom he ran away. Mrs. Conway has been informed that an escaped convict is lurking in the neighborhood. When she sees a black shadow on the porch she shoots—and kills Tom. But she never knows this, for her daughter and her husband carry Tom's body away for secret burial.

Tenth Grade Organizes.

The junior class organized Tuesday morning, April 13. Prof. Ransome was appointed (self-appointed) temporary chairman. At once he suggested the election of permanent officers. This election was fairly and squarely carried out, the chairman and his assistant, Hon. Herbert Decker, counting the votes and voters to see if they agreed.

After a long and exciting campaign we see the following officers in charge of the reins of this class to guide it prosperous through the days of its career. They are: President, Miss Abbie Bradley; Vice-President, Miss Nellie Wilson; Secretary, Mr. Selby Woods; Press Reporter, Mr. Stanton McGary; President's Stenographer, Mr. Caughey Horger; President's Bodyguard, Mr. Clinton Rothe.

After great deliberation three committees were appointed as follows: Social, Financial and Program. Prof. Ransome, feeling slighted that he did not get to be treasurer, arose and gave a hint that he would like to become an honorary member of the class. The students at once, being afraid he would "bust" some, immediately proceeded to elect him an honorary member by a unanimous vote (the only member being thus honored.) The only way that we can account for this is that he had no opposition. If the people do not think the tenth grade showed wisdom by electing their teacher as a member, they should remember that this may increase their prospects of being seniors next year.

The geometry class by this time had become worried and commenced to squirm in their seats because the next period was geometry, and they were afraid that they would be appointed by Prof. Peters to remain after school for not knowing their lessons.

Not wanting to take up any more time the meeting adjourned till Thursday.

Thursday, 4 p. m.—The meeting was called to order by the president when additional officers were elected as follows:

Mr. Herbert Decker, chief shoe-shiner; Prof. R. G. Ransome, assistant; Mr. E. Fusselman, stenographer's ink slinger; Miss Hazel Heath, "Bud Fisher" of the tenth grade; Miss Goldie Hurt, president's hair-dresser and maid; Miss Lucile Woods, chaperone; Hon. S. Filleman, janitor; Miss Clara Schweers, president's chief hat dresser; Hon. R. Weynand, porter; Miss Lelia Laughinghouse, chief dish-washer; Miss Maggie Cameron, sooth-sayer for tenth grade; Hon. Newell Woods, chief pencil-sharpener for secretary; Hon. A. Rothe, hot air producer; Miss Clara Gaines, bell-boy; Hon. Louis Carter, president's dress-maker; Hon. Caughey Horger, fireman; Miss Kate Henderson, oiler for stenographer's typewriter; Miss Florence Lacy, chauffeur for shoe-shiner's jitney; Miss Clara Miller, chief nickel squeezer.

There being no further business the meeting adjourned.

Tarpley Topics.

We had such splendid success the last time we wrote to this paper, in getting some of these folks guessing, that we thought we would try it again.

The farmers are making good use of the fine weather, and don't come to town much.

We are sorry to have to report G. H. Evans as sick. Hope to report his speedy recovery next time.

We noticed Mr. Willis O'Bryant in Tarpley today.

School is drawing to a close to the delight of some of the little folks. Tarpley has had one of the best school-terms this year in its history. We hope to be able to get Prof. Ed O'Bryant again next term, with what he and Miss Sauer (the primary teacher) has done this term, every one is highly pleased. We hear that the teachers are preparing for a big entertainment at the close of the present term, and the patrons of the school are expecting something fine, knowing the abilities of Prof. O'Bryant.

Since writing last, Mr. A. K. Dickson, formerly of Canado, Texas, has arrived and is stopping at the Tyra Hotel and will be with us permanently, taking his place in the store with his father.

Messrs. Jones and Farrar made a flying trip to Utopia and Devine last week.

Dickson & Son shipped out nearly 700 dozen eggs within eight days. Tarpley merchants pay better prices than Bandera or Hondo, we hear. How is that for three stores?

Chester Ferguson is over on the West Prong of the Medina working for his uncle, Dee Garrison.

We heard of one real estate transfer in Tarpley this week, store-house and lot, from G. Hicks to G. L. Dickson & Son.

We were pleased to see Ed Coughran in Tarpley two days last week.

Several of the boys from "Germany", were in Tarpley last Saturday, trading. We have heard some rumor that there might be a store put up in the neighborhood (Germany) some day. If it was just a little more thickly populated it would be a fine stand for a store, for we know that they are splendid people living there.

Mrs. S. I. Padgett, mother of R. N. and S. N. Padgett, has returned to Gatesville, after quite a long visit here with her two sons.

Mrs. S. N. Padgett is in Hondo being treated for asthma. Hope she will be entirely well when she returns.

The Baptist Church of Tarpley met in conference last Sunday and set the time for their protracted meeting for July 15th next.

We are glad to report Joe Douglas better.

We noticed Mr. Callahan of Hondo passing through the city last week and made a very short stop.

Tarpley Tex., April 15, 1915.

Card of Thanks.

I wish to extend my heartfelt thanks to the kind people of Hondo for their loving attention to my son, H. C. Schroeder, during his sickness and death.

I wish to especially thank the members of the Odd Fellows lodge, the Rebekah lodge and the Quini Gun Club for the valuable services rendered myself and son.

Each kind act and expression of sympathy will ever remain green in my memory.

May God always bless you and yours in my grateful prayer.

Yours very truly,
MRS. L. C. SCHROEDER.

On Final Round.

Assessor L. E. Heath spent a good portion of the week in the Devine country taking the assessment of those who failed to avail themselves of the opportunity of his former visit there to assess. It would be well enough for those who have not yet assessed to bear in mind that all assessments must be made before the last of this month, otherwise they will have to be placed on the unrendered roll. All who have not yet rendered their assessments would do well to give the matter their attention at once.

Leslie Ross went to New Mexico one day last week to seek his fortune. We wish the young man success. Leslie made a good many friends during his short stay up here.

Cotton planting is the order of the day, but the farmers complain that it is almost too dry for cotton to come up, so if the Anvil Herald forces wants to get on the good side of the farmers they can do so by sending rain.

Mr. Harry Spratt made one of his regular visits up Wards creek Sunday.

Lost, by O. P. Ross one blue colored turkey gobbler. If anybody has killed the bird by mistake, he might inform Mr. Ross so he will not waste any more time hunting for said bird.

Mr. and Mrs. Pennington visited Mr. and Mrs. Ross last week end.

Fraud Paint.

The worst mistake one is likely to make in painting is wrong paint; it is easy to make.

We all say "Ours is the best"; and there are 1000 of us. One is best; but a dozen are so near on a level that no one knows, for sure, that his is the one.

The worst paints are worst liars; they know what they are, put-on a bold face, and brazen it out.

Their one true argument is low price; but low-price paint is always, must be, a fraud; it is made to cheat cheatable people.
